Services

We Specialize in Start-ups and Existing Systems Upgrades

Starting a business can be a challenge. At Lightrr, we collaborate with veterinary practitioners to formulate a personalized IT plan for your practice needs. Every company requires an efficient, stable and secure IT network in order to grow a profitable business and we can help. Whether beginning an IT Business Solutions plan from start to finish or addressing upgrades to your existing network, we can help increase productivity and reduce headaches. Just let us know. Our teamwork approach can help outline your goals and we will do the rest.

Monthly Managed IT Maintenance Support Package

Lightrr can solve your IT nightmares with our Managed IT Maintenance Support. With this reliable and convenient managed service, we manage your system and have Technicians who can be available on site or by remote connection to make sure your business runs the way it should.

Guest Access and Social Media WiFi Package

Market your business in seconds to thousands of potential clients with our Social Media WiFi Package. We provide secure in-house Guest WiFi integrations that connect you faster to your target audience without putting your valuable client database at risk.

Written About
Our Work in the
Veterinary Industry**

"I highly recommend the IT Services provided by Lightrr. We've worked on upgrading an existing, large network and added Wi-Fi Guest Services. Lightrr also created and installed a ground-up network system, cameras and phones when starting our sister practice. Throughout the years, Lightrr has been efficient and consistently delivers comprehensive, well-priced services. They also have excellent follow-through with their IT maintenance packages. Thank you Lightrr for a job well done.

~ Dr. Terry Clekis, Owner - Braden River Animal Hospital & North River Animal Hospital

"Partnering with Mike and the Lightrr team is one of the best decisions I have made for my business. They helped me tailor a custom IT package to fit the exact needs of my new hospital. Because we are a start-up our IT needs changed on a near-daily basis in the month around doors opening. As each new piece of medical equipment was installed and integrated with our software, Mike was there collaborating with our vendors, helping me trouble-shoot and keeping our hospital running smoothly. Mike is one of those rare individuals who can think outside of the box allowing him to be fantastic at his job and provide exemplary customer service."

~ Dr. Danielle Churchill, West Park Animal Hospital

Written About
Our Work in the
Veterinary Industry**

"We began using Lightrr for our business starting in mid-January 2018. We have used multiple other IT companies in the past and have been exceptionally pleased with the services that Mike provides. When starting up, he walked us through the entire process and came up with a solution that was perfect for our business. Whenever I had a questions, Mike was very responsive, often answering within a few minutes (unless he was on an airplane). Anything that needed to be fixed was corrected in a timely fashion. As far as pricing, what we were quoted is pretty spot on with what our actual fees were.

I am very pleased to have met Mike and used Lightrr as our IT company. I would recommend them to anyone looking for an honest, talented, up front computer technical team."

~ Dr. Christopher Levine, Levine Veterinary Neurology

"As a veterinary practice consultant, I have recommended the exceptional IT services provided by Lightrr to every start-up or existing veterinary practice in need of efficient, honest, timely and reasonably-priced IT services. Our "go-to" source for anything IT and a company who continually exceeds expectations on every job. Thank you!"

~ Jean-David "JD" Parlier, Applied Veterinary Solutions, LLC

Frequently Asked Questions

Q. Where do you provide these services?

A. We provide our comprehensive IT services nationwide.

Q. Why should I go with Lightrr for IT support rather than anyone else?

A. Lightrr is a family owned business who specialize in the quality customer service you need and at a cost of what you can afford. We offer personalized packages to meet individual business needs. We will be there to support you every step of the way. You will NOT have to jump through hoops, contact us direct and we will be ready. We see each customer as an active part of our team and you are NOT just 'another number.'

Q. How do I know that Lightrr is the quality driven service and product specialist it claims to be?

A. Choosing a company to service your IT needs can be daunting. Take a look online at our reviews and references so we can prove to you your satisfaction will be 100% guaranteed.

Q. How much does it cost for IT support and Social Media WiFi?

A. Each package is individualized based on your business needs. We offer a free consultation with NO 'pressure sales' at your business so we can plan the right package for you and offer a very affordable solution.

Q. What if I have 5 people in my company or 500 – Can you help me?

A Absolutely. We work with a number of small, medium and large companies.

Q. I m not very up to date with IT / Technology. I have a lot of questions to go through?

A. No problem. We have years of expertise and knowledge in this area. We can go through each step and make sure that the service we offer are right for you. Easy to understand with no hidden extras.

Q. What if I have a problem with my IT and need a quick response?

A. IT is a vital part of any business. All you have to do is contact Lightrr and we will be there to fix the issue whether this is completed remotely or at the business location.

Q. What type of businesses do you support?

A. Any industry from healthcare, to small retail stores through to large multi-chain organizations.

Q. Is Lightrr insured?

A. Absolutely – We have a fully comprehensive liability insurance policy.

Q. How do I get in touch with Lightrr to discuss my needs?

A. Check out our website www.lightrr.com or contact us by phone today at 1-844-905-4448
